We are pleased to be called upon to announce the death on the 21st inst. of Myrta, daughter of Ethelbert Wicking of this city, aged eleven years and eight months.

Among the parties present at the Calico Hop on Monday night we note Mr. and Mrs. Fulkerson, Mr. J. W. Terhush, Mr. F. D. Wright, Miss Guest and Miss Thompson from Fenton.  
In many of the towns and cities of the State the Boards are fixing the liquor bonds for the ensuing year at, from \$4,000 to \$6,000. Would it not be well for our city fathers to do likewise?  
We have looked over the wheat fields of Michigan for twenty-six consecutive springs, and have never seen the indications of a large crop so universally good as it is at the present time.  
For insurance in the Odd Fellow's Covenant Mutual Benefit Association, call on the editor of THE TIMES. It is the safest, the cheapest and the best life insurance association in the United States.  
It is hoped that the arrangements for Decoration day may be perfected in a manner that will do full justice to the memory of the brave patriots who died that the Government might live.  
We are sending out from THE TIMES office this week six thousand copies of the "Bay View Herald, for 1882," published under the supervision of Rev. Seth Reed, Pastor of the M. E. Church, of this city.  
The Third Quarterly Meeting service will be held in the Methodist Church next Sunday. The Sacrament of the Lords Supper will be observed in connection with the morning service. Sunday School at the usual hour.  
The Lansing Republican states the number of supervisors elected in fifty-five counties to be Republican 341, Democrats 330, Greenbackers 122. The same places elected in 1881, 353 Republicans, 301 Democrats, and 129 Greenbackers.

The lecture on Palestine, by Rev. L. B. Platt, at the Congregational church on Sunday evening, was very interesting and drew a large audience. The second lecture will be delivered next Sunday evening. We shall soon print this series of lectures.  
The attention of our readers is asked to the advertisement of Mr. Arthur McHardy the old, reliable and well known dealer in Agricultural Implements. He has a large and well selected stock, which he is placing on the market at the lowest living rates. Give him a call.  
It is understood that the Prohibition State Central Committee have called a state convention to be held at Jackson, on the 28th of June, to nominate a state ticket, and elect delegates to the Prohibition national convention called to meet at Chicago on the 23d day of August next.  
Mrs. Brewer, the aged mother of Emory, Burns and Laelle Brewer, and Mrs. J. H. Howe is sick with inflammation of the lungs, and we hear that her physicians do not hold out any hope that there is a probability that she can live any considerable time. She is eighty-two years of age, and has lived in this county for many years.  
The East Saginaw Herald says that it has good reasons for stating that the preliminary surveys for a railroad from East Saginaw to Durand will soon be made, and that it is the intention to run three lines one via Flushing, one to follow near the county line, and the other through the centre of the townships of Albee and Maple Grove.  
Walker Merrell left last Monday night for Saginaw, where he is to take the place of engineer on the steamer "Saddie." Recommends from his late employers and the U. S. Light House Department prove him to be qualified for such a responsible position. He has the best wishes of his many friends in Owosso, in his new work.  
The trespass suit of Swarthout vs. Turnbull was tried before Justice Van Dusen on Saturday last and resulted in a verdict of \$50 damages. W. J. Turner and L. T. Wilcox appeared for the plaintiff and for the defendant, S. F. Smith. It is said that the "kids" conducted the case for the plaintiff in a manner, very creditable to themselves.  
The celebration of the 63d anniversary of the organization of Odd Fellowship in America was celebrated on Wednesday by Maple River Lodge, at Elsie, Clinton county. The meeting was well attended. Roe G. Van Dusen presided in a very creditable manner, and the exercises generally seemed to be satisfactory to the Fraternity, and of especial interest to the initiated. The address was delivered by the editor of THE TIMES, and Dr. Smith, of Elsie, officiated as chaplain. We have attended many public gatherings of the Fraternity, but do not remember one, which in all respects, was more pleasant or profitable.  
It pays to buy your clothing of Greene & Rollison.

We were favored on Tuesday by a pleasant call from Rev. Mr. Leonard, of Rochester, N. Y., a candidate for the Pastorate of the Baptist church in this city. Mr. L. appears to be a young gentleman of culture, and we doubt not would fill the place made vacant by the resignation of Mr. Farnum, to the satisfaction of the public and the satisfaction of the church.  
We see that the Holly Advertiser, has entered on the sixth year of its existence and reports itself in a prosperous condition. The Advertiser is looking sharply after the local and general interests of Holly, is wide awake on all questions affecting the prosperity of Oakland county. It deserves a liberal support, and will increase in usefulness as its circulation increases. May its prosperity never wane or its merits decrease.  
A law of the State of Michigan provides that in cities where a board of review is not otherwise constituted by the charter of said city, that it shall consist of the supervisors of that city with an equal number of members—not aldermen—appointed by the common council, and the city attorney. As Owosso comes under this class of cities her board of review will consist of the three supervisors, the city attorney, and three men to be appointed by the council at a meeting on or before the first Monday in May.  
The Bancroft Advertiser joins the Owosso Press in demanding as a matter of right the submission of the location of the county seat in this county to a vote of the people. Our position for years has been that when any respectable number of the people of a given locality desired to vote on any question, which, by existing constitutions and laws, is to be finally determined by popular vote, the law making power, was bound to submit the question, and let the people settle it, and that is just what Owosso demands as a right of the Board of Supervisors, on the Court House question; and the day is not far distant when that right will be recognized by the Board even if political graves have to be dug to secure it. Then if the people want Owosso for the county seat, they will say so, but if not, they will say the other thing. All Owosso asks is that the people may, in a legal way, settle the question for themselves, and there is no mistake about their right to do that, and none whatever that that right will be exercised.  
No old stock at Greene & Rollison, the one price clothing.  
MARKETS.—Wheat, \$1.20; oats, 40 cts.; corn, 30 to 35 cts.; a basket; barley, \$1.75 per centum; clover seed, \$4.50; hay, \$8 to \$10 a ton; pork, from \$8.00 to \$8.25; beef, 5 to 7 cts. by the side; chickens, 9 to 10 cts; turkeys, 10 cts; timothy seed, \$3.00.  
Advertised Letters.  
The following letters remained uncalled for in the Owosso Post-Office for the week ending April 28th, 1882.  
Edward Thomas, Mrs. Jennette Wade, worth, care Chas. Wadsworth, Jno. Connors.  
Persons calling for the above will please ask for "advertised letters."  
L. A. HAMBLIN, P.M.  
I. O. G. T.  
At a regular meeting of Owosso Lodge, No. 810, I. O. G. T., at their Hall on Monday evening the following persons were elected officers, for the ensuing term viz:  
L. Fairman, W. C. T.; Louie Swin, W. V. T.; Minnie Lapham, W. S.; Carrie Mix, W. F. S.; O. A. Crampton, W. T.; L. Moses, W. M.; W. Burhans, W. I. G.; Wm. McKenzie, P. W. C. T.  
This Lodge reports 52 members in good standing at this time. The attendance is generally very good, and the work of educating the people, in prohibition is being pushed forward, as circumstances permit with ever increasing vigor.  
O. D. C.  
At the regular meeting on Friday evening last of the Debating Club, some business was transacted and the programme carried out in part.  
The literary programme was opened by a German recitation by P. M. Roth; and the applause of the audience attested their appreciation of the same.  
The question, Resolved, That Chinese immigration to America should be prohibited, was then taken up and discussed in a very lively and able manner by W. J. Turner, M. B. Gates and L. T. Wilcox for the affirmative; Will Gould and F. S. Retan for the negative. Each side was presented fairly and clearly and showed that the subject had been carefully considered by the disputants. After listening to the arguments and some remarks by others the judges decided that America could do without the Chinaman.  
There will be no meeting of the club this evening.  
Man's Ingratitude.  
This is an ungrateful world to say the least. A man will act like a lunatic when he has the itching Piles, and declare that he knows he can't live another day, yet he applies Swayne's Ointment, the intense itching is allayed at once, he gets cured, and goes down to the lodge without one word of gratitude. When asked why he looks so cheerful, he dodges the question by an indifferent answer. Its just like a man though, isn't it?

Tucker's Draft Equalizer.  
Messrs. Gott & Son, of Middleville, Barry co., are in the country introducing and selling "Tucker's Draft Equalizer." It is a device to take the place of the common farm harness and does away with tugs and whiffletrees and is a great saving in time and expense. It is very simple and easily adjusted. It has the highest commendations from the press and is recommended by some of the leading farmers of the state, among whom we notice: Hon. E. G. D. Holden, Hon. F. W. Collins, James Cox, E. A. Burlingame and numerous others. That the device is practical and will in the near future do away with the cumbersome whiffletrees, will not be doubted by any one who will examine it. It was awarded first premium at the Barry county fair in 1881 and we quote a part of the commendation of the committee. "We consider it a novel invention of great practical value. Its main points of advantage are its simplicity, durability, efficiency and a saving of one hundred per cent. in the expense."  
Messrs. Gott will sell separate harnesses or the right for townships.  
Headquarters at the residence of Cyrus Matthews, Owosso.

PEOPLES' CYCLOPEDIA.  
THE LATEST, THE CHEAPEST, THE BEST.  
The flint lock musket, the sickle, the spinning wheel, the stage coach, the hand press were very useful things in their way and time, but the breech-loading rifle and Gatling gun, the automatic reaper and binder, the spinning machine, the railway coach and the power press are conceded to be superior products of a superior age.  
In 1728—fifty years before Watts made his great discoveries in steam, Chambers' Cyclopædia was first published. It was useful and has done great good. So has the old fashioned horse-lairaoa. In these one hundred and fifty-four years past the plan of the Chambers has not been changed.  
Who shall say that the nineteenth century can produce no improvement in a Cyclopædia?  
The Encyclopædia Britannica is a monument of wisdom. But is it practical? Do you like the sixty-eight pages on the infinitesimal Calculus, the 140 on Agriculture (not a word on American Agriculture), the 120 on Chemistry, the 60 on Applied Mechanics?  
Is not your whistle costing you rather dear?  
When you look in the Britannica for William Cullen Bryant, and Holmes, Whittier, Holland, Longfellow, and Bismark and Garibaldi, Garfield, Grant, Gambetta, Alexander of Russia, John Bright, Gladstone, and find these names conspicuous by their absence, do you like it?  
The People's Cyclopædia is just from the press. It is modern, practical, adapted to the wants and uses of all sorts of people.  
TESTIMONIALS.  
From Edwin Olney, Prof. of Mathematics, UNIVERSITY OF MICHIGAN, Ann Arbor, 1882.  
I am fully satisfied that the Peoples Cyclopædia is the Encyclopædia for the people. Its exceeding cheapness puts it within the reach of all, while it is good enough for any.  
EDW. OLNEY.  
The People's Cyclopædia seems to me to be a model of intelligent condensation, while giving, with a fullness satisfactory for all purposes, a vast amount of information on all subjects usually sought for in similar works of reference.  
H. S. TARBELL, Supt. Indianapolis Schools. (Formerly of East Saginaw.)  
From Dr. B. F. Crocker, Ann Arbor University.  
"Yours is to my mind just the Cyclopædia the people want. The more I examine it the better I am pleased."  
I take great pleasure in recommending the People's Cyclopædia as the best work of the kind published. John Wilson, Pastor Methodist Church, East Saginaw.  
FLINT, MICH., January 23, 1882.  
I have carefully examined vols. of the "People's Cyclopædia" you so kindly left with me, and without any hesitation look upon it as the most useful work of the kind ever introduced to the American people. It contains more practical knowledge than any work of the kind now in print.  
Faithfully yours, E. H. THOMSON.  
The Superintendent of Flint Schools says: "I have examined the People's Cyclopædia somewhat hastily, and though it is concise, yet for this very reason, and its completeness, I think it better adapted to the wants of people in general than the more voluminous editions. M. T. GASS.
